Project Leadership

A member of the RATIO team since 2005, Jackie brings more than 20 years of experience in urban design, community planning and landscape architecture in both the public and private sector.

Jackie is passionate about creating healthy context-sensitive environments in which we can live, work and play. She is committed to providing professional expertise in planning and design services that respond to a client's needs while exhibiting a creative flair and environmental sensitivity, reflecting modern design theories.

Throughout her career, Jackie has prepared zoning ordinances, comprehensive plans, master plans, environmental documents, planting and irrigation plans and developed design guidelines for several communities. As a planner she has used her exceptional communication skills to educate the community and present projects and facilitate meetings, workshops and charrettes.
